SAFETY TIPS *Corner*

'Tis almost the season of ice and snow! Driving through winter roads can be dangerous even for the most experienced drivers, but this is also when they are most needed. Here are 3P's that can help you as you navigate through snow-dusted roads.

Prepare

Make sure that your vehicle has chains and that they fit on the tires. You can always reach out to your dispatcher and get a supervisor who can show you how to put the chains on.

Ice scrapers are also a must-have in your vehicle. Let us know if you need one if you don't have it yet.

Protect yourself and your passengers.

Are you and your passenger secured? Remember to get everyone secured before you get moving.

Prevent crashes.

Be mindful of your following distance. Brake early—remember that it takes more time to stop in slick conditions.

Drive happiness through service as you remember these three simple tips this winter season!

For more tips on driving in this type of weather, go to Winter Driving Google Classroom. If you do not have access to this classroom, don't hesitate to reach out to Brandy so she can add you to it.
